The Edge is located on the beach in Estepona, one of the most exclusive locations on the Costa del Sol.

Any plan you can think of, you have it on the other side of the door. Golf, Michelin star restaurants, the Picasso Museum and the Pompidou Center in Malaga and all the activities in nature that you can think of. Since water sports on one of its 27 flagged beaches blue, to a hiking trail in the Montes de Málaga.

Rafael de La-Hoz signs one of his most personal projects.

The Edge is nature made architecture. Its organic shapes follow the coastline and close around the pool. At the same time, the buildings are arranged as a sea inlet in which the limits between the gardens and the sand of the beach are blurred. A particular and at the same time open universe, capable of adapting to the environment and improving it, always with the Mediterranean as a backdrop.

APARTMENTS

If you dream of a private garden, stay at sea level; All the ground floors have their own garden space. If you prefer a terrace, you can choose between 2, 3 or 4 bedrooms. Whatever you choose, you are sure to be right.

PENTHOUSES

Your private pool will be your own oceanfront ocean. And each terrace, an entire beach. Open spaces and infinite light so you can enjoy the horizon with 3 or 4 bedrooms.

VILLAS

Two independent homes, with 4 bedrooms, so exclusive that they are the border between the artificial and the natural. Distributed in two heights, they have a private garage and their own perspective of all your sunrises and full moon nights over the Mediterranean.
